About this lovely little pyramid I chose for the symbol for Intuitive Attunement ...

This quartz crystal pyramid with engraved Shree Yantra brings multiplied blessings of protection, clearing, concentration, growth and success. Quartz is the "Universal Crystal." It enhances energy by absorbing, storing, amplifying, balancing, focusing and transmitting, and it assists with manifesting, healing, meditation, protection, and channeling.

Three-dimensional crystal Shree Yantras are composed of 9 intertwining triangles that form a pyramid. Four of the triangles point upwards, representing Shiva or the Masculine, and five point downwards, representing Shakti or the Feminine. Together they represent the union of Masculine and Feminine. The nine triangles are interlaced in such a way as to form 43 smaller triangles in a web symbolic of the entire cosmos, a lotus of eight petals, a lotus of sixteen petals, and an earth square resembling a temple with four doors surround this.

The Shree Yantra is a symbol of radiant white light energy; the crystal acts as a catalyst and a conductor of energy. It can be used to cleanse the atmosphere of large areas - our homes or places of work, our own personal healer for the body, as well as transformer for the spirit. It helps our intuitive insight, to see the light in the darkness. When laid on the body, the Crystal Shree Yantra can dissolve the blocks that impede the flow of energy.
